Vesting & Lock Structure

TGE (Token Generation Event)

20% released at TGE (Cliff Release)
Example: If an investor buys 1,000,000 HEL → **200,000 HEL unlocked at TGE**

Vesting for Remaining 80%

80% distributed linearly over 10 months
Monthly unlock: **8% each month**
Total vesting duration: **10 months**

Team & Treasury Locks

Team Allocation:
3% cliff,
Remaining 97% unlocked equally over 24 months

Treasury Allocation:
3% cliff,
Remaining 97% unlocked equally over 24 months

Liquidity Lock:
Liquidity pool tokens will be **locked for 18 months** to ensure long-term stability.

Liquidity & Listing Plan

Estimated Liquidity Tokens: 20–30M HEL (aligned with TGE release)
Liquidity Pair: HEL / USDC
Launch DEX: Raydium (primary), Jupiter aggregator support
Liquidity Lock Period: 18 months
Listing Price: To be announced after presale completion

Token Technicals

Token Mint Address: 3B5BPvT3YS8ZzDDE6Z9brjtSFQYb69krNbnd9F35szqj
Metadata CID (IPFS): bafkreierzrwno4anddoz6yaluga7v3zg2ctynbebhctaptdycjlke37cyu
Token Type: SPL (Not NFT)
Metadata Framework: Metaplex Token Metadata Standard (via UMI SDK)

Audit & Security

Mini Audit Completed By: *Helyon Security Unit*
(Internal pre-audit covering token structure, vesting logic, and allocation integrity)

Post-Presale Audit:
A full professional audit will be conducted by **Certik or SolidProof** after the presale concludes.

Use of Presale Funds

Category	Allocation
Liquidity Pool	30%
Development (Energy Credit, Staking, Web, Integrations)	25%
Marketing & CEX Listings	20%
Treasury Reserves	15%
Security & Audits	10%

Official Helyon Team Structure

Founder & Lead Architect – Raif S.

Oversees complete project vision, token architecture, and long-term roadmap
Responsible for SPL token development, Solana integrations, metadata management, and technical infrastructure
Leads strategic planning, security policies, community direction, and all operational decisions
Direct creator of the whitepaper, tokenomics, and audit preparation

Smart Contract & Security Contributor (External / Part-Time)

Provides external technical support for smart contract requirements
Assists with security standards, review processes, and audit responses
Supports Solana metadata, UMI SDK, and Metaplex-based integrations

Design & Brand Identity Contributor (Freelance / External)

Responsible for Helyon's brand identity, logo, visual guidelines, and UI aesthetics
Ensures the website and ecosystem visuals align with the brand identity
Prepares visual assets for marketing and social media

Marketing & Community Support (Freelance / Rotational)

Supports social media strategy and communication tone
Helps manage community discussions, announcements, and content flow during presale
Ensures professional messaging throughout the campaign

Post-Presale Team Expansion Plan

Upon successful completion of the presale, Helyon will expand its permanent core team in the following strategic areas, in line with the project roadmap:

- **Backend & Smart Contract Development**

- **Ecosystem Integrations (Solana, UMI SDK, Metaplex)**

- **Brand & UI/UX Design**

- **Marketing, Growth & Community Operations**

This expansion will be executed selectively and funded through the presale budget, ensuring long-term sustainability, improved development speed, and greater ecosystem support.

The current project structure is fully functional and led by the Founder, with external contributors supporting technical, design, and marketing workflows until permanent hires are onboarded.

⚠️ Disclaimer

Helyon Token does not constitute investment advice. Cryptocurrencies involve high risk. Participation in the presale is voluntary, and Helyon cannot be held responsible for market-related losses. Investors should conduct their own research.
